

### Position Purpose

The Association of Schools and Programs of Public Health, a non-profit organization representing CEPH-accredited graduate schools and programs of public health, is seeking a junior front-end web developer. You will be joining a dedicated in-house web development team to deliver innovative software and services for our organization, our members and the public health field.

### Responsibilities/Duties/Functions/Tasks

This position is an entry-level role for a junior front-end web developer who has the skill set to develop, enhance, and maintain WordPress sites. We are looking for someone who has working knowledge of HTML, CSS, and JavaScript skills and is willing to build upon those skills in collaboration with our in-house web development team. The position is based in Washington, D.C. with remote work options.

### Qualifications

- Demonstrable experience in HTML, CSS, JavaScript, and JQuery
- Familiarity with responsive design, mobile UX, and user-centric design
- Ability to interact with web service APIs, JSON, and XML feeds
- Knowledge of WordPress and/or other content management systems in addition to website security best practices
- Understanding of WordPress architecture, developing custom themes and custom content types, creating custom plugins
- Experience with implementing off-the-shelf plugins and upgrades
- Understanding of PHP, MySQL, and LAMP stack skills
- Experience with Ruby on Rails, React, and/or Salesforce is a plus
- Previous work-place experience working collaboratively with an agile team including other developers, designers, and marketers is a plus
- Strong communication skills

Salary dependent upon experience and qualifications.

### General Information

ASPPH is an equal opportunity employer located in Washington, D.C. ASPPH is the only organization representing the Council on Education for Public Health (CEPH)-accredited schools and programs of public health. The schools and programs represent the primary education system that trains personnel needed to operate the nation's public health, disease prevention and health promotion programs. ASPPH's mission is to strengthen the capacity of members by advancing leadership, excellence, and collaboration for academic public health.

### To Apply

Please submit cover letters and resumes to Ms. Jamie Atchison, Senior Director of Application Development, at [jatchison@asp-ph.org](mailto:jatchison@asp-ph.org).
